## SMASHING CLOSE TO MAY DAY FETE

Perfect Training of the School Kids Elicited Much Applause

## THOUSANDS ATTENDED

Winding of the Maypole as Usual Was Fitting Climax to Event

With the several thousand spectators, students and teachers standing in attention while the high school band played the national anthem, the annual May Day fete of the grade schools of Tulsa was brought to a smashing close at the Lee stadium Friday afternoon.

The ribbon-wound Maypole and scores of boys in their track costumes who had just finished performing a spectacular pyramid stunt were on the field when the program was climaxed. The boys carried flags and held them high while silence fell over the gigantic crowd until the band had finished playing. The day was perfect for the celebration and hundreds who could not find seats stood to watch the performance of an hour and a half.

**Training Was Perfect.**

The wonderful thing about the program to onlookers was the perfect training that the drills and dances bespoke. The field was covered with small bodies moving in perfect and easy rhythm to the music—it looked, bird's-eye view, like one huge piece of machinery. The program was started off with a drill in which possibly 200 students from Riverview, Washington, Irving, Kendall, Lincoln and Horace Mann schools took part.

Clad in green and white Russian costumes and wearing little white fur caps, a large group of girls made up of 12 from each of the city schools danced a typical Russian folk dance—Troika. Following this, the girls from each school danced a dumbbell drill. Weir music in a minor key was the cue for the entrance of scores of little figures hidden in flowing black robes and wearing tall pointed black caps. Each of them carried a broom of the variety that legendary tradition says sweeps the cobwebs from the sky and they danced a witches' dance that was as well done as it was characteristic. The dancers were pupils from Lincoln, Osage, Longfellow, Pershing, Jefferson, Celia Clinton, Horace Mann and Emerson schools.

Twenty boys and girls from each school gave a rather intricate wand drill, followed by an Indian club drill given by the same number of pupils.

**Danced the Maypole.**

The feature of the program was the Maypole dance. Five poles beautifully decorated in blue and white, purple and gold, pink and white, green and white and pink and green were surrounded by little girls with sashes and wristbands to correspond with the May colors, and they danced the steps of the dance simultaneously and in perfect accord. The winding of the multi-colored ribbons that left the poles neatly checked with the duo-colored ribbons climaxed this dance.

A team of boys from each school formed pyramid groups that displayed excellent muscle control and balance, as the last number of the program.

The drills were directed by J. C. Miller, physical director of the schools in conjunction with the teachers of the schools.

**Mexican Convention Begins.**

LAREDO, Texas, May 6.—The international convention of the Mexican Blue Cross opened here today with 200 delegates in attendance. Under Secretary of Foreign Relations Aaron Saenz of Mexico City is attending as representative of the Mexican government. For the first time in history all Mexican consuls general in the United States are assembled together as convention delegates.

## Oil Burners Hit Bathers And Lobsters

WASHINGTON, May 5.—The bathing beach girl and lobster have suffered alike from pollution of navigable waters by oil-burning ships, the house foreign affairs committee revealed today in a report on a resolution requesting the president to call a conference of maritime nations to stop it.

Aside from the fire hazard from the piling up of oil waste along the docks, the report showed that on the Atlantic, Pacific and Gulf coasts, lobsters, oysters and fish of all sorts were destroyed to an alarming extent and that bathing beaches had been greatly damaged because of this pollution.

## IMPROVEMENT IN LABOR CONDITION

Labor Secretary Finds Oklahoma Is Making Small Gains

Special to The World.

WASHINGTON, May 5.—Employment conditions in Oklahoma on May 1 as compared with April are encouraging with virtually all sections reporting limited improvements, while a few have substantially gained, Secretary of Labor Davis announced today in reviewing general labor conditions.

Metal production shows a few gains. Lumber industry has taken an upward trend, with apparently more full time operations than employment. Railroad shops report greater employment with further improvement expected. Building continues spilt with a lessening of unemployment in these trades. Public improvements have somewhat reduced the surplus of unskilled labor.

The report by cities follows:

Oklahoma City—Employment conditions show a moderate betterment with additional gains looked for within the next 30 days. Miscellaneous industries are gradually picking up, although still considerably curtailed. Building continues animated especially in dwelling, affording more employment, but insufficient to absorb the existing surplus. Public improvements are more active with indications that it will substantially reduce idleness in common labor.

**Conditions Better.**

Tulsa—Employment, a few, a slight upward trend with future uncertain. Lumber and its products show greater activity but unemployment has not materially decreased among these workers. Building continues steady on a moderate basis. Public improvements are gradually lessening idleness in unskilled labor of which there is a considerable surplus. Oil operations are more lively.

Muskogee—Employment has substantially increased. Railroad shops have distinctly gained. The majority of workers in these occupations have been re-employed. Building construction under way provides employment to a greater number of these craftsmen. Public improvements in process are gradually absorbing idle labor.

**Field—Employment.** Conditions have improved. Miscellaneous industries are generally sluggish but hopeful of a pickup during the next 30 days. Building shows only moderate activity, with considerable idleness in this line. Large unemployment in skilled labor.

**Big Pay Vein of Ore.**

Special to The World.

KINGFISHER, May 5.—Word has just been received that the Fox Lead & Zinc Co., with holdings in the northeast part of Oklahoma near Miami, has opened up a big pay vein of ore, and the property is at the least a half million dollars. The controlling end of the company is owned by Englishmen.

## FIELDS WILL NOT MAKE CAMPAIGN

But County Fields Clubs Will Be Organized in Every District

Special to The World.

OKLAHOMA CITY, May 5.—Headquarters for the state-wide Fields-for-governor club will be opened at Oklahoma City Saturday in the Skirvin hotel, with Frank Northrup in active charge. It is proposed to immediately begin the work of extending the Fields organization into all counties and precincts in the state, in accordance with the understanding reached at the meeting May 1, and to bring out a strong vote for Fields at the primary.

It was understood at the mass meeting here last Monday, when Fields agreed to become a candidate, that he would not make a personal campaign and that those who were urging him to run would make the fight for him. In fact, it was only by making the agreement to do this that those who were in the meeting secured his consent. The opening of headquarters for organization of Fields clubs is in line with the agreement to relieve the candidate from the expense and obligations of a campaign.

A number of counties have already organized county Fields clubs; in fact, a majority of the counties in the state have such an organization. It will be the purpose to complete this work, and to aid the county clubs to organize the precincts.

Democratic politicians are having much trouble in discovering the attitude of Hugh Scott, who left here on the evening of the Fields meeting and told the democratic papers that he was making a brief trip to the northwestern part of the state. They had reporters watching every incoming train for four days, waiting to interview him for something that might embarrass the republican situation, when, to their dismay, they discovered Friday that Scott was in Washington. It was quite a disappointment, and scores one for Scott. The fact that Scott had been called back to his work in Washington was known to his friends at the time of his departure, but the opportunity for a job on the democratic politicians was too good to be overlooked by a man with Scott's sense of humor, so the real facts were withheld.

**Railroad Bonds Authorized.**

WASHINGTON, May 5.—The Missouri and North Arkansas Railway company was authorized today by the interstate commerce commission to issue \$3,000,000 of common capital stock consisting of 30,000 shares at \$100 par value each. At the same time the railroad was authorized to issue a \$5,000,000 first mortgage 15 year gold bond, this bond to be pledged with the secretary of the treasury as collateral security for a government loan of \$3,500,000.

## "Cowboy" Long Again in Toils of Law on Charge of Possession

"Cowboy" Long, whose drug store at 222 East Second street was ordered padlocked by the district court sometime ago on complaint of police officers, was again in the toils of the law Friday night, and once again the charge of possession of intoxicants was placed against him.

"Cowboy" was arrested by police detectives Sid Jackson, W. S. Ellis, T. W. Harris and W. J. Ealey, Friday evening, following a raid Friday morning on a rooming house at 6-A North Main street, said to be run by Long, in which about 9 half-pint bottles of corn whiskey were seized.

Long was not at the rooming house at the time of the raid, according to the officers, but a warrant for his arrest was sworn out and late in the evening when he returned to the rooming house he was arrested. His bond was placed at \$500.

## BOARD WANTS TO LOSE 2 MEMBERS

Alleged That Brady and Mrs. Ross Fail to Attend Meetings

The mayor and commissioners at their meeting Friday gracefully sidestepped an invitation to discharge two members of the library board. They voted to "rescind and file" a resolution passed by a majority of the library board and signed by Edmund Lashley, secretary, which was virtually a request of the commission that it relieve Tate Brady and Mrs. William Miller Ross of their duties on the board.

In the resolution it was stated that Brady and Mrs. Ross have "missed more than three consecutive meetings" contrary to the constitution and by-laws of the library association, and left the inference that they seldom, if ever, attend and take part in the board's deliberations.

Their continued absence, according to the resolution, makes it difficult for the four remaining members to transact business, as the by-laws specify that at least four members must attend to constitute a quorum. If any of these four members are unable to attend because of illness or detention by business, no regular meeting can be held and it becomes necessary to call special meetings.

"We don't want to mix in the library board's business," Mayor H. F. Newblock declared in commenting on the resolution before the vote was taken.

A new automobile searchlight mounting is so geared to the steering wheel that it rays always shine in the direction that a car is running.

## News of Sapulpa TULSAN IS NEW HOSPITAL HEAD

Beulah Tracy Now Superintendent of Institution at Sapulpa

SAPULPA, May 5.—Beulah Tracy, former superintendent of the Tulsa hospital, has been appointed superintendent of the Sapulpa hospital and arrived here today to take charge of her new office immediately.

During her term as executive at the Tulsa institution Miss Tracy also conducted a training school for nurses. A similar training school will be inaugurated in connection with the local hospital, the new superintendent has announced. Six nurses of the Tulsa hospital were so pleased with service under the new Sapulpa superintendent while she was in Tulsa that they will come here to accept positions.

**Enlarge Railroad Y. M.**

A movement to help the Railroad Y. M. C. A. has been launched by the chamber of commerce here. Adjoining bath, beds and rooms are needed at the institution and it is the plan of the chamber to assist the Y officials in securing them. A thousand dollars will be secured by solicitation to supply the improvements.

**New Tourist Camp.**

A large site to be used for camping purposes by tourists who pass through Sapulpa during the coming summer months will soon be obtained by a joint committee composed of chamber of commerce and Kiwanis club members who met yesterday afternoon to discuss the proposition. A four-acre tract of the Timmy Pife land, west of the city, will be leased for a term of five years. This land lies at the intersection of the Ozark Trail and the Pumphkin Center highway. Boy Scouts and others were sent out to clear the tract of all brush and other obstructions to campers.
